R1,691

The Lenovo Laser Rechargeable Presentation Remote is more than a remote—it's your gateway to commanding attention and delivering ideas with impact. Designed to adapt to any setup—projectors, TVs, video conferencing, or multi-screen environments—it empowers you to lead with confidence. The vivid green laser and digital pointer ensure precision, while five advanced modes and customizable controls give you total creative freedom. A built-in vibration alert keeps you perfectly on schedule so every presentation ends as strongly as it begins.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
