Hohem iSteady MT2 KIT Gimbal

The Hohem iSteady MT2 KIT Gimbal is an advanced tool for anyone who wants to take the quality of their recordings to the next level. With its wide range of features, durable design and ease of use, it is an ideal choice for both professionals and amateurs looking to hone their skills. Choose the Hohem iSteady MT2 KIT and create projects with confidence!

An innovative gimbal for demanding creators

The Hohem iSteady MT2 KIT gimbal is a versatile stabilizer that raises the bar in filming and mobile photography. Equipped with a magnetic fill light and integrated with an intelligent tracking module, the iSteady MT2 provides professional image stabilization and incredible ease of use. Made of aircraft-grade aluminum and high-performance composites, this gimbal combines durability and lightness to offer exceptional creative capabilities.

Compact, lightweight and durable

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

The iSteady MT2 KIT is distinguished by its compact size when folded (262mm x 186mm x 64mm) and light weight - the stabilizer weighs just 653g, the smart sensor 23.6g, and the tripod 99.3g. With a maximum load of up to 1,200 g, the gimbal is perfect for a wide range of cameras and smartphones. The robust design ensures long life and protection of the equipment, making it an ideal choice for professionals and hobbyists.

Versatility and advanced modes

The Hohem iSteady MT2 KIT offers a variety of modes that allow the user's creativity to be fully utilized. The ability to infinitely rotate 360° in panorama mode, 200° pan and 290° tilt gives you the freedom to create dynamic and striking shots. Choose from modes such as automatic 360° initial rotation, lock mode, sports mode, or POV (first-person perspective) mode to match the settings to your recording style.

Intuitive controls and functionality at your fingertips

Thanks to the built-in control buttons, operating the gimbal is simple and intuitive. The M button allows you to quickly switch between stabilizer modes, create shots, auto-calibrate and pair with the remote control (not included). The shutter button offers functions such as auto focus, start/stop recording, switch between photo and video modes, and change front/rear camera.

Advanced features of dedicated app

With a compatible app, Hohem iSteady MT2 KIT users can further automate and customize their recording experience. The app offers features such as firmware updates, parameter settings, shutter control, one-touch recording types (such as moment or time-lapse mode), as well as beauty filters and panorama modes. It's the perfect tool for those who want full control over their shots.

Ergonomic design and versatile capabilities

The Hohem iSteady MT2 KIT was designed with ergonomics and convenience in mind. The stylish design and high-quality materials ensure not only an attractive appearance, but also long life and protection of the equipment. Additional expansion ports (bottom, right and on the tilt arm) allow for easy attachment of additional accessories, increasing the device's versatility and functionality.
