

Hohem microphone (2TX + 1RX + charging case)

Model: MIC-01

Manufacturer: HOHEM

EAN: 6971071551873

Product Code: 515520

R3,233

Hohem Microphone (2TX + 1RX + charging case)

Hohem microphone is a professional audio recording tool that combines advanced technology, versatility and ease of use. With a wide range of features and excellent sound quality, it is the ideal choice for anyone who needs a reliable audio solution for a variety of applications. Choose the Hohem microphone and enjoy the highest quality audio recordings in any situation!

Reliable sound quality in a compact format

Hohem microphone is an advanced audio solution that will meet the expectations of even the most demanding users. Thanks to its advanced technology and ease of use, this microphone is the ideal tool for live broadcasting, recording videos, interviews or creating music. The lightweight design and built-in magnets make it easy to attach transmitters and receivers, and its low weight (15 g each)

ensures all-day comfort. The included wind shields protect the diaphragm from explosives and wind noise ensures excellent sound quality even in harsh conditions.

Excellent sound quality and noise reduction

The Hohem microphone provides pristine sound quality with a 48 kHz sampling rate and 16-bit depth, which effectively eliminates background noise and delivers digital sound of the highest quality. The built-in omnidirectional microphone captures sound from any direction, even when the TX transmitter is held upside down. The DSP noise reduction has three levels that can be adjusted depending on the environment, ensuring clear and transparent sound in any situation. The ability to choose between strong noise reduction mode (yellow indicator), standard (green) and high quality (blue) allows full control over the recording.

Versatility and ease of use

Hohem MIC is extremely easy to use thanks to its plug and play feature, which eliminates the need to install additional drivers and configuration. With compatibility with a wide range of devices - cameras, camcorders, smartphones, laptops and tablets - the Hohem MIC is ideal for anyone who needs a reliable audio recording tool. Real-time monitoring allows you to listen and adjust audio while recording, giving you the highest level of control over the quality of your recordings.

Long-lasting operation and fast charging

The Hohem microphone is equipped with a powerful 850 mAh battery that provides up to 7.5 hours of operation on a single charge. With the charging case, the operating time can be extended to 20 hours, making it ideal for long recording sessions. Quickly charging the equipment with a USB-C cable (only 1.5 hours) allows you to minimize downtime and get the most out of your equipment.

Advanced features and full control

The Hohem microphone's TX transmitter can be used as a standalone recorder and allows local audio backup to a TF card for greater flexibility of use. The microphone also features a reverb mode that masks subtle imperfections and adds depth and warmth to recordings. The ability to adjust the microphone's sensitivity at five different levels gives you full control over the recorded sound, and a

mute mode makes it easy to stop recording when needed.

Compatible with Apple and a wide range of devices

The Hohem microphone has official MFi certification from Apple, which means it is fully compatible with iOS digital audio transmission protocols and charging standards. This ensures stable and reliable audio recording on Apple devices. A 3.5mm audio jack allows for the connection of an external microphone, further enhancing the versatility of the Hohem microphone.

Included

- TX transmitter 2x
- RX receiver
- charging case
- type C cable
- windshield 2x
- storage bag
- user manual

Manufacturer	Hohem
SNR	64dB
Sensitivity	-38 dBFS
Input voltage	DC4.8 ~ 5.4V
Frequency response	20 Hz-20 kHz
Output delay	25 ms
Transmission frequency	2.4 GHz
Sampling frequency	48 kHz
Operating time	7.5 hours, with charging case 20 hours
Charging time	approximately 1.5 hours
Charging case battery capacity	850 mAh
Transmitter	150 mAh
