Darkflash DPX90 computer case (black)

Looking for a case to build a high-performance gaming or work computer? Opt for the Darkflash DPX90! Thanks to its compatibility with ATX, M-ATX and ITX motherboards, as well as the ability to mount a wide variety of components, you'll easily create a configuration that 100% meets your expectations. In addition, two transparent panels will allow you to display selected components, such as those with RGB backlighting, in an interesting way. You can also easily take care of optimal cooling of your computer.

Spacious design with room for expansion

The DPX90 case is designed for maximum expansion flexibility - it is distinguished by its large, spacious interior. It will easily accommodate a graphics card of up to 425 mm in length, a CPU cooler of up to 185 mm in height and a power supply of up to 270 mm. So you can mount exactly the components you need! In addition, the case offers space for two HDDs or one SSD, providing a

variety of storage options.

Useful connectors at your disposal

The DPX90 is equipped with several useful ports - it offers, among others, a USB 3.0, USB 2.0 and USB-C 3.1 port for fast charging and efficient file transfer. A headphone jack and microphone input are also available. All this will allow you to use your peripherals of choice comfortably!

Extensive cooling options for demanding users

The Darkflash DPX90 supports a wide range of cooling configurations, allowing the installation of up to 9 fans. It also allows you to install water cooling up to 360mm. All this ensures optimal air circulation and efficient heat dissipation even under intense load. So you can play demanding games or work on graphics projects without any worries!

Fantastic visual effects

The DPX90 case offers a unique 270-degree panoramic view thanks to the tempered glass side panel, which was designed without an additional pillar. This makes the inside of the computer perfectly visible for a fantastic visual effect, for example, with backlit components.
