Darkflash DY451 fanless computer case (black)

The Darkflash DY451 computer case is a stylish, spacious ATX Mid Tower design that is perfect for both advanced and mid-range computer configurations. Its large internal space and thoughtful layout of components allow convenient installation of components and ensure excellent air circulation. Note: for full functioning of the display it is necessary [download the driver from the manufacturer's website](#).

Tempered glass panel

DY451 is equipped with a side panel made of tempered glass, which gives it a modern look and allows it to expose components with A-RGB lighting effect (no fans included). Such a design will please aesthetic lovers and those who want to enjoy a dynamic look of their computer.

Excellent cooling options

The case supports various cooling options, allowing you to install as many as 10 fans. You can install water cooling on the top (240/360 mm) or on the side (280/360 mm), giving users the freedom to choose the optimal solution for their setup. Ventilated front panels and a bottom dust filter improve airflow and also make it easier to keep clean.

Easy access and modern connectors

The Darkflash DY451 offers convenient, intuitive controls from the front panel. Users will find buttons for power on and restart, as well as ports: 2 x USB 3.0, USB-C and audio input. This allows users to quickly connect external devices and manage the cooling system.

Functionality with solid construction

The case is made of high-quality SPCC steel with a thickness of 0.8 mm, which ensures durability and stability of the design. It also comes with a removable dust filter on the bottom of the case, making it much easier to clean and keep the interior in perfect condition.
