Yeelight Cube 4-Matrix (4 pack)

The Yeelight Cube 4-Matrix set will allow you to awaken your creativity and take care of an amazing atmosphere in any room. Four gaming panels combined with a dedicated base allow you to immediately start playing with dynamic light arrangements. You can display emoji, letters and other patterns to liven up your space. Each panel features 25 addressable LEDs that offer endless customization possibilities - from creating unique patterns to syncing with music to working with games.

Create the perfect lighting

The Yeelight Cube 4-Matrix panels allow you to compose light patterns of your choice thanks to a matrix with 25 addressable LEDs. From the dedicated app, you can personalize each panel by drawing your designs, changing colors and creating dynamic lighting effects. The kit works with platforms such as Razer Chroma and Overwolf, so the panels can synchronize with the atmosphere of the game and create unique visual effects in real time. You can also create a clock. No more

limiting your creativity!

Sync with music and screen

Yeelight Cube 4-Matrix allows you to integrate with music and screen. Thanks to ARGB technology, the panels respond to the rhythm of your favorite songs, changing the light in harmony with the music. In addition, the cubes dynamically reflect the colors displayed on the monitor, creating an immersive visual experience while playing, watching movies or relaxing.

Comfortable control

Manage the Yeelight Cube 4-Matrix Pack panels in the way that best suits your needs. Thanks to Matter protocol compatibility, the cubes will easily connect to Apple HomeKit, Google Home or Samsung SmartThings. Control all your smart devices from a single app without having to constantly switch between different platforms! The panels also work with voice assistants such as Amazon Alexa, Google Assistant or Yandex Alice, allowing you to operate with voice commands. A Yeelight Station PC app is also available, giving you full control over your lighting.

Ready-made kit for the creative

The kit comes with four Yeelight Cube Light Matrix panels, a dedicated base and an adapter, so you can efficiently get started with Yeelight lighting. You can install up to six cubes on a single base, allowing you to further expand your light system. Thanks to the built-in magnets, connecting the modules will not cause you any difficulties. Other variants of the product are also available for sale separately - the Smart Cube Light Panel, which provides soft, colorful light, and the Smart Cube Light Spot, which acts as a spotlight. Each piece is distinguished by its elegant matte finish, which will fit perfectly into any interior.

Included:

- Yeelight Smart Cube Matrix gaming light panel x4
- Base
- Adapter
