R2,510

IsEasy dual-zone gas cooktop MGBS-312A (stainless steel).

The IsEasy MGBS-312A gas cooktop is the perfect solution for those looking for a combination of performance, durability and stylish design. Equipped with two heating zones, it provides maximum convenience and time savings without taking up valuable space, making it perfect for a small kitchen. Made of stainless steel, it stands out for its elegant appearance and resistance to damage and corrosion.

Powerful burners for a variety of cooking needs

The appliance offers two burners with different wattages: a larger one with 3,300 watts, ideal for fast frying and cooking in large dishes, and a smaller one with 1,000 watts, which will work well for gentle heating or simmering. This makes the hob perfectly suited to different cooking needs.

Safety and comfort

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The IsEasy hob is equipped with an automatic flame shut-off function, which ensures safety by preventing gas leaks if the flame is accidentally extinguished. The control knobs are made of heat-resistant material to ensure comfort and durability even under heavy use.

Easy to clean

The stainless steel surface and removable grates allow for quick and hassle-free cleaning. As a result, your kitchen will always remain in perfect order, and the hob will retain its modern, aesthetic appearance for longer.

Saving space thanks to the built-in design

The compact size (51 x 31 cm) and built-in design make the hob fit perfectly into any kitchen space, saving space and giving the interior a modern touch.
