IsEasy MGBG-775S2 Five Zone (Square) Glass Gas Cooktop.

The IsEasy MGBG-775S2 gas cooktop combines a sleek glass finish with advanced features that make everyday cooking easier. Equipped with five burners of varying power, a reliable ignition system and sturdy cast iron grates - it offers not only convenience, but also safety. At the same time, the device is compatible with different types of gas, and its small size and built-in capability make it ideal for almost any kitchen.

Five cooking zones for complete flexibility

The IsEasy MGBG-775S2 cooktop offers five independent burners of varying power: 1x 1 kW, 2x 1.75 kW, 1x 2.7 kW and 1x 3.3 kW. This allows you to prepare a variety of dishes at the same time - from delicate sauces to high-temperature frying. This solution saves time and makes it easier to organize your kitchen, especially when cooking for more people!

Durable cast iron grates

Sturdy cast iron grates provide exceptional stability for cookware, which is especially important when using heavy pots and pans. Their resistance to high temperatures means that they retain their properties for many years, and their durability translates into a longer life of the entire appliance. This is the ideal solution for demanding users who value reliability.

Convenient and safe use

Built-in pulse ignition eliminates the need to use matches or lighters. Just gently turn the knob, and a flame will appear in a flash! Such a solution not only increases the comfort of use, but also reduces the risk of accidental burns. In addition, the hob is equipped with a special safety system that automatically cuts off the gas supply if the flame goes out. This ensures greater safety of use and allows you to cook without worry.

Compatibility with different types of gas

The IsEasy MGBG-775S2 hob is compatible with both natural gas (NG) and liquefied petroleum gas (LPG). It will work great with methane, propane or butane. So you can easily adapt it to your gas installation!

Refined in every detail

The sleek glass surface not only gives the device a modern look, but also makes it easy to keep it clean. To get rid of dirt, just wipe it with a damp cloth! What's more, the hob is equipped with high-quality burners and knobs that are very durable and wear-resistant. They will serve you perfectly for a long time!

Thoughtful design for built-in

The hob measures 77 x 51 cm and fits into 73 x 48 cm installation niches. This makes it easy to install it even in a small kitchen! Carefully thought-out design allows you to fit it into almost any arrangement, while saving valuable space.
