

## AnceL S100 leak detection smoke generator

Model: S100

Manufacturer: ANCEL

EAN: 5907085523712

Product Code: 515559

# R2,808

### AnceL S100 leak detection smoke generator

AnceL S100 is a reliable vehicle leak detection device that allows you to quickly and effectively diagnose various automotive systems. Compact and easy to use, the S100 will prove useful in workshops. By using generated smoke, the device allows you to precisely locate the source of the problem, saving you time.

### Versatility of application

The S100 detects leaks in many automotive systems, such as fuel, exhaust, cooling and turbocharger systems. It is an indispensable tool when testing EVAP systems, door and window seals, engine blocks or valves. Thanks to its ability to diagnose even the most inaccessible places, the detector proves itself in both simple and more complicated repairs.

## Precision and efficiency

The device generates smoke at low pressure (0.5 PSI), which minimizes the risk of damage to system components. Equipped with a standard 1/2 PSI regulator, the S100 offers stable and controlled operation for safer diagnostics. Thanks to the use of smoke, visually locating leaks is extremely easy, even in hard-to-reach areas.

## Easy operation

Using the Ancel S100 will not cause you any problems. All you have to do is pour mineral oil, connect the device to a power source (12V) and turn on the smoke generation. The device takes only 1 minute to heat up, making it extremely convenient for daily use.

## Protection and safety

The S100 is designed with durability and safety in mind. It has overheating protection and can operate in extreme temperatures, which increases its reliability. Reverse polarity and spark protection guarantee safe operation.

## Included

- smoke generator
- hose
- power cable
- adapter
- smoke evacuation hose
