R2,553

IsEasy LT2V-15 ceramic/electric cooktop

The IsEasy LT2V-15 hob is the perfect solution for those looking for compact and efficient cooking equipment. With 9 power levels, you can adjust the heating intensity to suit your needs - from gentle heating to fast frying or cooking. The dual-zone design allows you to use two cooking fields simultaneously, which offer 1200 watts and 2000 watts of power.

Refined design

The IsEasy LT2V-15 cooktop is compatible with various types of cookware, giving you full freedom in selecting pots and pans. Its sleek glass surface is easy to clean - just wipe it with a damp cloth to keep it perfectly clean. The built-in cooling system guarantees efficient heat dissipation and low noise emissions, so the hob's operation does not disturb the household.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Safety of use

The integrated safety system includes a child lock that protects little ones from accidentally starting the appliance. With the residual heat indicator function, you always know when the surface is still hot. The hob has a compact, built-in design that saves countertop space and blends seamlessly with modern kitchen decor.
