Uperfect Ustation Z14-S M140G13 14" 2240*1400 portable monitor

The Uperfect Ustation Z14-S M140G13 is a 14-inch portable monitor that significantly increases workspace. The 2240 × 1400 (QHD) resolution display offers crisp images with 100% sRGB palette reproduction. The screen, with an aspect ratio of 16:10, is made with IPS technology and covered with a matte coating that effectively reduces glare for comfortable working in a variety of conditions. The device works with laptops from 13 to 17 inches, and thanks to its rotation both vertically and horizontally, it easily adapts to the chosen work layout. It can be mounted directly on the laptop case or used as an independent screen.

Adjustability

The swivel hinge allows you to freely adjust the positioning of the screen. The Uperfect monitor can be rotated vertically by 360° and horizontally by 210° to adjust its position to suit your current needs. Such capabilities work well both when working in a single window and when using several applications at the same time. The device automatically detects the current orientation and adjusts the image layout on its own without having to manually switch settings.

Versatility of applications

The Uperfect Ustation Z14-S M140G13 can function both as an additional screen for a laptop and as an independent monitor. Thanks to its detachable design and sturdy stand, it's easy to position it vertically or horizontally - depending on what you happen to be doing. Such flexibility works well for working with documents, graphic design projects or video conferencing.

High image quality

The 2K resolution (2240 x 1400) guarantees a detailed and sharp image, while the IPS matrix provides good viewing angles and accurate color reproduction. The screen achieves a brightness of 400 cd/m² and a contrast ratio of 1,500:1, allowing comfortable use in a variety of lighting conditions. Coverage of 100% of the sRGB color space also makes this model suitable for simple graphics work where color accuracy matters.

Fit for laptops

The monitor is designed for users of laptops with diagonal sizes from 13 to 17 inches. The flexible mounting system allows you to quickly and precisely fit it to a specific model. Sturdy handles encompass the device's chassis and keep the screen firmly in place even when moved. The whole thing is designed so that it won't shift or slip during use.

Included:

- Portable monitor
- Power adapter
- Mini HDMI to HDMI cable
- USB-C to USB-C cable
