Freewell 2-in-1 Macro Wide-Angle Lens for FUJI X100VI/X100V

The Freewell 2-in-1 Macro Wide-Angle Lens is a versatile accessory designed specifically for the Fuji X100VI and X100V cameras. It combines a wide-angle and macro lens, allowing you to both shoot expansive landscapes and take detail-filled close-ups from a short distance. Depending on your needs, you can use only the macro lens or superimpose an additional wide-angle section on top of it for even wider shots.

Uncompromising image quality

The lens' advanced optical design minimizes distortion and chromatic aberration for sharp, clear images in all conditions. It offers 0.75x magnification in wide-angle mode and 2x magnification in macro mode for exceptionally detailed and visually appealing frames.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Lightweight, compact and ready for action

The lens weighs just 155 grams, making it lightweight and ideal for travel and outdoor photography. A mounting ring is included for quick and secure attachment to the camera. An additional 62mm thread allows you to use filters seamlessly, making this lens an even more functional addition for creative artists.

Included

- 2-in-1 wide angle lens
- mounting ring
- rear lens hood
- front lens hood
- cleaning cloth
- lens bag
