Model: HPL3161A3400-14

Manufacturer: HP INC.

EAN: 4030152031610

Product Code: 573834

R1,821

The HP OneLam 400 A3 has a fold-out lid, which not only serves as a practical insertion aid, but also makes the device a particularly space-saving companion. The practical backloader is suitable for hot and cold lamination and can be used for laminating films with a thickness of 75/80 to 125 microns. Whether you want to protect recipes, photos or children's drawings from wear and tear, the laminator seals your documents regardless of format, from business cards up to DIN A3.
