Product Code: 609436

R4,059

Professional studio-grade microphone and arm; pro sound quality and a clean look.

Studio Style Microphone

Transform your desk into a content studio. With a cardioid audio pattern, a shock mount, zero-latency monitoring and an aluminium boom arm included, the Trust Onyx Professional Microphone delivers everything you need for studio-quality audio recording. Plus, the adjustable LED lighting ring with six colours will bring your quality recordings to life.

Cardioid for Content Creators

Designed with content creators in mind, this professional membrane microphone is adept at streaming, recording and broadcasting any kind of content. Thanks to the cardioid pattern, background noise is reduced, which makes this microphone suitable for podcasts, voice-overs, livestreams and instrument recordings; every sound you make will be captured in the highest possible quality.

Boom Arm

For studio-quality recordings, you need a stable setup. This studio-grade boom arm is made from sturdy aluminium to reduce unwanted sounds from vibration. The arm is fully adjustable, so you can secure the best position and angle to record, while keeping an eye on ergonomics at the same time. Clamping onto a table, the stand saves space, and a hidden cable keeps your desk clean.

Pro Features

Several pro features are included in the Onyx' design. The shock mount reduces the sound of any movement, while the pop filter filters out unwanted popping sounds for a crystal-clear quality. Furthermore, the zero-latency headphone monitoring port enables you to listen to what you're recording in real-time, without any delay. Situated on the body of the microphone is the gain dial; this allows you to quickly adjust the audio sensitivity. You'll also find the easy-access mute control there – when muted, the LED light will turn red.

Easy Setup

Recording is instant and effortless with the Onyx. Thanks to the USB connection, all you need is a desktop or laptop with a USB port. A hub with one extra USB port is included for extra convenience.
