- **IoT & M2M:** Connecting sensors and controllers to the cloud.
- **Space-Constrained Areas:** Ideal for electricity cabinets, vending machines, and ATMs where large antennas won't fit.
- **Indoor Setups:** Used in locations with stable mobile coverage where an external wired antenna is unnecessary.

Key Specifications

- **Connector:** SMA Male.
- **Frequency:** 698–2700 MHz (supports 4G/LTE, 3G, and GSM).
- **Type:** Straight, rigid design (no swivel).
