The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Fast, Versatile Connectivity to Accommodate All Business Scenarios

The ASUS ExpertWiFi EBA63 provides seamless connectivity for various business settings, featuring the flexible power options of PoE (Power over Ethernet) and AC adapters. By connecting to a PoE switch or PoE wired router, you can get both power and data transmission over a single Ethernet cable.

Extend Your Business Network with ASUS ExpertWiFi

ASUS ExpertWiFi networking products are designed for easy scalability to fit a variety of SMB scenarios. By integrating ExpertWiFi series products, you can extend your business network coverage and access a complete suite of ExpertWiFi’s software features to boost your business operations. You can also connect the ExpertWiFi products with ASUS AiMesh extendable routers.

*The ASUS ExpertWiFi series is compatible with ASUS AiMesh products; however, the functionality of software features is subject to the capabilities of the primary router. The availability of some ExpertWiFi features may also depend on whether the AiMesh router supports them.
