Whatever your project, bring it to life. Personalize your world with colourful, original P-touch Btag non-laminated labels. Made exclusively for use with Brother P-touch PT-N10, PT-N20, and PT-N25BT label makers, Brother Btag 12 mm label tapes make it easy to create customized labels in colours that will make your world pop with personality. New to labelling? So is Btag! With years of experience and a proven track record in the labelling business, it's easy to see why Canadians trust Brother with their labelling needs. The Brother Genuine legacy of performance, value, and quality continues with this offering – Btag non-laminated label tapes. Brother's most colourful addition to the P-touch collection of label makers and accessories is perfect for personal, home and home office use. Resistant to water, temperature, fading and household liquids, these durable labels are also microwave, dishwasher and freezer safe, which makes them an easy, affordable way to personalize, organize and customize your living spaces, workplaces, and virtually everywhere in between. Whether you're setting up a colour-coded system, adding creative accents to crafts and gifts or looking to organize your belongings, Btag labels come in 17 eye-catching colours and are a reliable match for all your labelling needs. All Btag label tapes share a universal size of 12 mm (~½ in.) wide

x 4 m (13.1 ft.) long, so there's no second-guessing when it comes to compatibility and fit. It also means there's plenty of room to print up to two lines of text, so you can express yourself exactly how you want, wherever you want. Featuring split, easy-to-peel backings, application is always a breeze. We've made a Brother Btag 12 mm label tape for every corner of your world – from walls to workbooks, dorm rooms to dishes, and cables to containers. Choose your favourite colour (or all of them!) to discover how enjoyable it is to be creative and be unique with Btag.

Be Creative. Be Unique. Btag.

Btag isn't just any label printer tape. It's an exceptionally versatile, affordable, and fun way to make everyday living more colourful with custom-printed labels! If you're looking for endless expression, continuous creativity, and optimal organization, then look no further than Btag 12 mm label maker tape.

Application is effortless

All Btag label tapes feature a split backing which makes them easy to peel and apply. It's a time-saving feature that's especially useful when creating many custom printed labels at once.

A-peeling benefits

Uniquely durable and ideal for everyday environments, Btag labelling tape offers peace of mind performance in so many places, on so many things.

Btag labels + P-touch label makers = the ultimate creative team

Brother's latest collection of P-touch label makers is designed for exclusive use with Genuine Btag 12 mm label tapes. Available in a kaleidoscope of 17 colourful varieties, there's always a label to match your mood, your room, or your personal belongings.

Life's about to get a whole lot more colourful with Btag from Brother.

With years of experience and a proven track record in the labelling business, it's easy to see why Canadians trust their labelling needs to Brother. Find the label maker that suits your needs today.
