6 mm-thick* high-borosilicate glass container paired with stainless steel crisping tray. Coating-free* for peace of mind-no odd smells or harmful emissions, even during high-heat cooking.

3D Circulating Hot Air Technology

Dynamic wrap-around even crisp roasting with a stable temperature curve allows food to achieve uniform crispiness without needing to be flipped, less oil less fat.

High-Temp Steam Locking in Moisture & Tenderness

A water chamber built into the container base releases high-temperature steam during cooking, helping retain interior moisture while creating a crisp, golden exterior.

360° Panoramic Viewing

Full visibility helps you easily monitor your food as it cooks.

5 Smart Preset functions

Say goodbye to complicated steps—just click and go.

Temperature-sensing Indicator

When the indicator turns red, do not touch the surface of the glass container. Always hold the heat-resistant handle when moving it.

Removable design, Effortless Cleaning

The frosted shell PowerCore wipes clean in seconds. The glass container and crisping tray are both soakable and dishwasher friendly.

5-Layer Safety Protection System

- Overheat Auto Shut-Off
- Open-Lid Pause with Memory Function
- Heat-Resistant Handle
- Anti-scald Top Handle
- Non-slip Feet
