Here comes the boom

Give your music, games and movies a boost with the Cetic. With 18W peak power, you'll feel like you're front row at that concert, right in the middle of your favourite game, or on location for the next big blockbuster. Now that's good listening!

More vibes, less plastic

This speaker set is sure to make you and Mother Earth happy. Made with 76% recycled plastics, the Cetic allows you to enjoy your sick beats whilst knowing you're doing something good for the planet too!

Turn it up

The Cetic is all about form and function. Its smooth and stylish design is not only cool, but practical too. Easy-to-reach volume control enables you to instantly adjust your sound, whilst a built-in headphone connection on the front makes sure you stay connected for calls and more.

Plug and play that music!

No wall socket? No problem. This speaker set is completely USB-powered, meaning it can work straight from your laptop or PC. Get those good vibes going!
