Built with 4mm black tempered glass on the side panel, which adds a filter to the internal RGB lighting device, making your PC parts a stunning showpiece. The non-drilled glass design effectively reduces the risk of fragmentation, allowing users to remove it with ease and safety, also extending the product lifespan.

I/O PANEL

Equipped with two USB 3.0 ports, audio ports, a reset button and a power button.

DETACHABLE MAGNETIC FRONT PANEL

The front panel features a magnetic design, enabling gamers to effortlessly remove it for device replacement and routine cleaning.

PSU SHROUD DESIGN

Enjoy a clean look by hiding the PSU and those messy power cables inside the PSU shroud, while separating the PSU heat from the rest of the internal system. With the window design on the left side of the shroud, users can show off the cool outlook of PSU.

DETACHABLE DUST FILTER

The filters keep your PC from accumulating dust, while maintaining optimal cooling performance. The magnetic filter of top and right-side panels, along with the removable filter at the bottom, make maintenance easy.
