With twelve programs, the BPA-free BACKMEISTER® Design bread machine delivers bread variations from 700 to 1,000 grams. Whether gluten-free bread, bread size or browning level: everything can be selected via the LCD display. The baking process can be pre-programmed for up to 13 hours using the time selection button, and after baking the bread is kept warm for up to 60 minutes. In the event of a brief power failure, the power failure protection continues the baking process. Convenient thanks to the cool-touch housing, large viewing window and anti-slip feet.
