Freedom,

Comfort,

Immersive Audio

TUF Gaming H1 Wireless offers the freedom of a 2.4 GHz wireless connection and truly immersive audio with rich and deep bass response, thanks to 40 mm ASUS Essence drivers, an airtight chamber design, and virtual 7.1 surround sound technology. Plus, a Discord and TeamSpeak-certified microphone delivers clear voice communication and a lightweight suspension headband ensures comfort.

Ultra-Low Latency Wireless Connection

The TUF Gaming H1 Wireless rises above traditional headsets with 2.4 GHz wireless technology and a dual-antenna design. Because its connection is enabled via a USB-C® dongle, it offers lower latency and better stability than Bluetooth® headsets. Along with near-real-time audio transmission, H1 Wireless delivers extensive coverage of up to 25 meters — so you can move about freely and stay connected.

Incredibly Deep Bass &

Crystal-Clear Detail

TUF Gaming H1 Wireless headset gives you the most iconic features of ASUS gaming headsets, including airtight chambers and 40 mm ASUS Essence drivers for clearer audio with deeper bass.

Virtual 7.1 Surround Sound

Virtual 7.1 surround sound technology* provides an upgraded level of audio precision that can give you a competitive edge during gameplay.

*Supported by Windows Sonic and Armoury Crate

Certifiably Clear Communication

The unidirectional analog boom microphone is tuned for clear voice communication and certified by Discord and TeamSpeak.

COMFORT FOR LONG GAMING SESSIONS

Lightweight Design

Weighing only 295 grams, the lightweight TUF Gaming H1 Wireless headset is designed to keep you comfortable during extended gaming sessions.

Suspension Headband

For long-lasting comfort, the suspension headband with a fabric strap is designed to enhance flexibility and reduce pressure across the top of the head.

Ample Power for Marathon Gaming

The extended battery life offered by TUF Gaming H1 Wireless enables 8 days1 of casual gameplay or music enjoyment on a single charge, or up to 15 hours2 of nonstop action for hardcore gamers.

1 Based on an average play time of two hours per day.
2 Actual battery life varies with use, settings and environmental conditions.

TUNING AND CUSTOMIZATION MADE EASY

Instant Control

at Your Fingertips

Handy and intuitive control buttons on the ear cup make it easy to adjust volume, mute or unmute the microphone, or switch the headphones on and off.

Multi-platform Compatibility

With TUF Gaming H1 Wireless, you don't need another headset for console gaming—because it provides truly comprehensive cross-platform support, including for PCs, Macs, PlayStation® 4 & 5, Nintendo Switch™, smartphones and tablets.
