Product Code: 626790

R4,215

The JVA06 Dual HDMI™ Video Capture allows users to capture uncompressed 1080p video from two HDMI™ sources simultaneously and customize the content in real time. Whether you're live streaming or recording, there are six screen mode configurations available, including PIP (Picture in Picture) and PBP (Picture by Picture) displays. You can quickly adjust the display settings and transitions with the built-in buttons on the device. The JVA06 also features a Chroma Key application allowing users to drop in a new background image.

With a flexible audio connection via HDMI™ or analog 3.5 mm port, you can record audio directly from your HDMI™ sources and microphone. It has a built-in audio mixer function allowing users to toggle between four different audio settings and three audio inputs (Mic In, HDMI™ A and HDMI™ B).

The JVA06 is perfect for content creators/producers who want to level up their content without spending a fortune and live streamers who want to simplify their setup without compromising the quality of their content. It features a USB-C® host connection with Power Delivery 3.0 and two cold shoe adapters to attach to your DSLR for the perfect combination of ease-of-use and mobility, giving you the ability to live stream without interruptions and charge your connected USB-C device at the same time.
