Extended Displays

The DST-Mini XT can support a single extended display at 4K@30Hz through the HDMI or DisplayPort connections. Dual display setups are also possible with crisp Full HD 1080p. This makes this dock the perfect solution for any creative, data analyst or intense spreadsheet worker.

Added Connectivity

This docking station can unlock a world of connectivity for your device. Delivering DisplayPort, HDMI, Gigabit Ethernet, SD Card Slot, USB-C, SuperSpeed USB Type A ports (5Gbps) and a combined 3.5mm headphone jack. To deliver as much added functionality as possible, the right USB Type A port has both SuperSpeed data transfer and Battery Charging 1.2, meaning you can charge connected mobile devices.

Pass-through Charging

Thanks to the USB-C PD 3.0, by connecting a USB-C charger to the DST-Mini XT you can expect up to 100W charging of the connected laptop. With Battery Charging 1.2, one of USB Type A port delivers 5V and up to 1.5A for faster charging. Simply connect one USB-C cable and be confident that your laptop and connected devices will be fully charged and ready to go.

Plug-and-Play

This docking station does not require any driver installation. This allows for seamless large-scale implementation and a hassle-free experience.
