

Targus 4Vu 35.6 cm (14") Laptop Frameless display privacy filter

Model: ASF140W9EGL

Manufacturer: TARGUS

EAN: 5063194000473

Product Code: 628893

R1,813

The Targus Edge-to-Edge Privacy Screen is designed to fit 14-inch laptops with 16:9 ratio infinity screens (approx. panel size 31.8 x 18.3 cm). To protect your information, tiny vertical blinds on the surface of the privacy screen narrow the viewing angle so data is only visible directly in front of the monitor up to 30 degrees away from the centre of the screen. Onlookers will only see a dark unclear screen when attempting to view the information from a side angle. In addition to providing security, the screen also blocks the glare to help reduce eye strain. The Targus Laptop Privacy Screen can be easily attached by using clear adhesive strips designed for LCD filters or with the included tab guides that stick to the edge of the LCD bezel to hold the screen in place. Users can also position the tabs so the screen easily slides on and off. Highly portable and easy to use, the Targus Privacy Screen prevents onlookers from seeing valuable information often viewed on a laptop or LCD monitor.

Suited for Workplace or Personal Use

One study found that employees are 50% less productive when their visual privacy is at risk, and that two in three employees expose sensitive data outside the workplace.

With more of us working in open office settings, on-the-go, or in unsecured environments, visual privacy is a critical consideration for employers and employees alike. Privacy screens add a layer of protection that encourages productivity at the same time it protects confidential information.

30° Viewing Angle

Even in public places like hotel lobbies, airplanes, or cafes, the 4Vu™ Privacy Screen keeps your data safe from prying eyes. Your content is visible only to the person directly in front of the screen and up to 30° on either side. You have full clarity and visibility, while onlookers or passers-by see only a black screen.

Reduced Glare, Even in Bright Rooms

For an added benefit, our Privacy Screens come with a dual finish – with one side being glossy for a clearer view, while the opposite side offers a matte finish to help reduce glare. Our anti-reflective coating reduces glare and improves light transmittance under most viewing conditions. The result is brightness that's up to 12.4% higher than competitive privacy screens for comfortable, clear views.

Three Easy Installation Options

Quickly and easily attach the screen directly to your display using any of the three convenient installation options.

Long adhesive strips: stick on to the LCD screen for a firm, fixed hold.

Hinge tabs: shallow hinges along the top edge of the notebook frame (the bezel) to hold privacy filter in place.

Flip hinges: attach to the top of the privacy screen and over the top of the laptop to create a seamless on/off experience with a simple flip. Use the included adhesive lift tab, to easily flip from privacy mode to public mode without fingerprints.

Blue Light Filtering

Whilst blue light is all around us, too much screen time can lead to increased exposure of artificial
