1440p/144 Hz*)

- Graphic adapter technology: USB-C (MST) + USB-C PD
- 1× integrated USB-C cable (20 cm) for easy host connection
- Power Delivery up to 100 W (internal consumption only 10 W)
- 3× HDMI 2.0 ports for crystal-clear output
- Supports HDR 400-1000, G-Sync, FreeSync

Compatible with major systems: Windows 10/11, macOS*, Android*, iPadOS*, ChromeOS, Linux

* NOTE: The macOS operating system does not support Multi Stream Transport (MST) multi-screen video technology, which means that when connected to macOS, the same image will be projected on all screens.

* iPadOS, Android do not support multi-screen video transfer technology, nor the extended screen option. This means that when connected to an external monitor, only the mirrored screen will be displayed. (Not valid for androids with DEX and Easy Projection extension)
