R8,645

With the most advanced technology, Plustek is not just providing the hardware technology but also software. Users only need to press one button, the documents and valuable information and be sent and saved to selected destination with our high class imaging processing. The newest paper feeding, crop/deskew and ultrasonic features prevent your document completely and collect data accurately.

Exceptional Document Handling

The SmartOffice PS406U Plus features one of the most advanced document feeding and separation system in the industry. This system allows the SmartOffice PS406U Plus to scan mixed batches of

varying paper sizes and weights. Able to handle everything from business cards to rigid ID cards and documents, the SmartOffice PS406U Plus easily scans both sides of one sheet in just one pass. The automatic document feeder (ADF) is also robust enough to feed up to three hard cards continuously or an embossed card up to 1.2 mm in thickness.

Exceptional Productivity

Operation of the PS406U Plus is simple with Plustek's exclusive software- DocAction. Users can simply scan and send to dedicated folder. What's best is that the scanned image can also be saved to your desired application. Moreover, the document format can be set to JPG, PDF.....etc.

Intelligent Misfeed Function

The PS406U Plus scanner prevents multi-feeds by checking the thickness of documents and detecting overlapping pages with the built-in ultrasonic multi-feeds detection capability. Users will be warned when a multi-feed is detected.

Plustek DocAction

Button utility to simplify document scanning. DocAction enables you to specify your personalized scanning configuration settings and scan documents with the touch of a button. Scanned documents are automatically sent directly to Printer, Email, Folder or FTP. DocAction also enables you to scan directly to many imaging and document management applications. DocAction saves scanned documents in all common imaging formats including: JPEG, TIFF, and PDF.

Plustek DocTWAIN

Industry standard TWAIN drivers ensure compatibility with thousands of image enabled applications including: document management, document capture, enterprise content management, forms processing, photographic imaging and image management applications.
