Connect a DVI display to a Mini DisplayPort-equipped PC or MAC® over a longer 10 foot distance – Black

The MDP2DVIMM10B Mini DisplayPort® to DVI Adapter Cable lets you directly connect your Mini DP video source (such as any of your MacBook® or Microsoft® Surface™ Pro devices with mDP) to a DVI monitor or projector, eliminating the expense of having to upgrade to a Mini DisplayPort-capable monitor.

The adapter cable is 10 feet (3 m) in length, and features male-to-male connectors, allowing you to connect your Mini DisplayPort source directly to a DVI display with no additional cabling required.

Compatible with Intel® Thunderbolt™, when connected directly to a supporting DisplayPort over Thunderbolt I/O port, the adapter supports resolutions up to 1920x1200 (WUXGA).

MDP2DVIMM10B is a passive adapter that requires a dual-mode DisplayPort port (DisplayPort++), meaning that DVI and HDMI signals can also be passed through the port.

Backed by a StarTech.com 3-year warranty and free lifetime technical support.
