Always the right ergonomic postures with great functions.

This wired mouse is suitable for right- and left-handers

The Evoluent4 has great functions like six programmable buttons, a directly reachable DPI-button to adjust the pointer speed into one of the four different values (800-1300-1800-2600) that suits you best, illuminated Evoluent logo turns off when the system is in power saving mode, and a lip which supports the little finger. Start working with the Evoluent4 and support your hand in an upright neutral posture that avoids forearm twisting. With the Evoluent4 Right Wired you will experience comfortable working at the computer.

Automatic sleep mode.

The lighted Evoluent logo on the vertical mouse is not just a nice eye catcher. It is also an indicator, if the Evoluent4 Wired is in the sleep mode or not. The illumination turns off when the system is in sleep mode to conserve laptop battery power. A well-thought-out function, which can be very helpful, when you need to save the battery power of your laptop.
