

Wireless Router MERCUSYS Wireless Router 2-pack 1900 Mbps Mesh LAN \ WAN ports 3 HALOH50G(2-PACK)

Model: HALOH50G(2-PACK)

Manufacturer: MERCUSYS

EAN: 6935364006600

Product Code: 639816

R2,072

Fill Your Home with Mesh WiFi

AC1900 Whole Home Mesh WiFi System

A Whole Home WiFi Solution

Nothing’s worse than unreliable connections and internet speeds unable to keep up with your digital lifestyle. Halo works as a unified system to guarantee a strong WiFi signal in every corner of your

home, providing an incredibly fast and stable network experience. Interruption and buffering will be a thing of the past.

Smooth Streaming in Every Corner

Compared with a regular single router which has limited range for remote corners of the home, Halo H50G works as a unified system to guarantee a fast and stable WiFi signal throughout your home, covering up to 6000 ft² (550 m²) and eliminating WiFi dead zones. Enjoy smooth mesh WiFi from the front door to the backyard.

Fit Any Type of Your House

The Halo Whole Home WiFi kit includes multiple units to fit any type of your house. If that’s not enough, you can expand Mesh WiFi coverage anytime by simply adding more Halos.

Signals Never Drop with Seamless Roaming

The Halo system automatically connects your phones or tablets to the fastest node, delivering a truly seamless network experience. No more sudden signal drops or lagging WiFi when you’re walking around the house.

Six Signal Amplifiers

Strong WiFi Signals Across Your Home

Adopting six well-designed signal amplifiers and receivers, Halo H50G effectively amplifies signal transmission power and captures signal more rapidly, greatly improving the distance of signal transmission and the signal strength of each of your WiFi devices.

Non-Stop Entertainment with

1.9 Gbps Dual Band WiFi

Every unit of Halo WiFi System offers fast speed dual band WiFi, delivering combined speeds of up to 1.9 Gbps. With six simultaneous data streams, Halo H50G can connect your devices to more bandwidth, helping you stream, game, download, and more on every device with faster internet speeds.

Smart Connect

Combines Two Bands in One

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

Smart Connect combines the 2.4 GHz and 5 GHz bands into a single WiFi SSID and helps your devices intelligently choose the best available band that has the stronger signal and faster speed, keeping your devices always running optimally.

Connect over 100 Devices

Halo H50G harnesses the power of three separate AC1900 units, delivering super fast seamless WiFi for over 100 devices. Featuring MU-MIMO technology, Halo keeps your phones, computers, and all IoT devices connected simultaneously and operating at peak performance.

Beamforming for Targeted Signals

Halo H50G supports Beamforming technology to detect devices, even if they are far-away or low-powered, and concentrate wireless signal strength towards them, making your connection more stable.

Better Online Experience with Self-Healing

The Halo system smartly chooses the better route of connection between Halos according to the status of the network. If one Halo has an issue, the system will automatically reroute data to fill in any gaps in coverage to make sure you always stay online stably.

Gigabit Ports,
WAN/LAN Auto-Sensing

No need to distinguish LAN/WAN port with WAN/LAN Auto-Sensing technology, reducing time and effort. Halo H50G makes full use of your ISP internet access and transfers data to wired devices at dizzying speeds for peak performance with full gigabit ports which are 10× faster than Ethernet ports.

MERCUSYS APP Helps You Setup in Minutes

Without understanding technical knowledge or reading installation instructions in advance, just follow the on-screen directions with the MERCUSYS app to set up your mesh network in minutes.

Manage and Secure Your Home Network

The MERCUSYS App helps you manage your Wi-Fi at home or away through your iOS or Android devices.

Check the Status of Connected Devices

Intuitively view the working status of each Halo network and see what devices are connected, prioritize or block the devices if needed.

Quality of Services

Prioritizes devices you select to perform better.

Set Up a Guest Network

Provides a separate network for guests to ensure your security and privacy.

Monthly Reports

See a comprehensive list of your network details every month, including usage, blocked content, security threats and more.

Shake to Share

Shake to share your home WiFi’s name and password to invite your friends to join the network.

New Device Access Alert

The MERCUSYS App proactively sends out an alert to inform you when an unfamiliar device is connected. Tap to block the device if it has a security risk.

- One Unified Network – With advanced Mesh Technology, Halo units work together to form a single unified whole home network with one WiFi name and password
- Seamless Roaming – Automatically switch between Halos as you move around your home, always getting the best signal to enjoy the fastest connections for all your devices
- Whole Home Coverage – Blanket up to 4,000 ft² (350 m²) with high-speed WiFi, eliminating WiFi dead zones at your home
- 1.9 Gbps Dual Band WiFi – Halo H50G provides fast and stable connections for over 100 devices with speeds of up to 1,900 Mbps and works with major internet service providers (ISPs) and modems
- Easy App Control – Use the MERCUSYS App to quickly set up and manage your WiFi
- Full Gigabit Ports – 3× Gigabit ports per Halo unit for lightning-fast wired connections

Summary: Mercusys AC1900 Whole Home Mesh Wi-Fi System. Product colour: White, Antenna type:
