The multi-port USB-C 5Gbps AXAGON HMC-5H60 5in1 hub expands your laptop, computer or phone with five ports. Via the double-sided USB-C connector, you can quickly and easily connect a monitor and three USB devices to the computer at the same time. You also get the possibility to supply laptop using Power Delivery technology at the same time. The port replicator will thus provide you with a simple and compact 5in1 docking station for modern laptops.

The USB hub offers three USB 5Gbps outputs, two with standard USB-A and a third with USB-C data connector. Transfer rate up to 5Gb/s thanks to the fast USB 3.2 Gen 1 interface. The hub can permanently connect several external drives simultaneously and also allows charging of phones and

tablets with up to 1.5A/5V current. From the hub, you can easily charge e.g. Android smartphone, Apple iPhone, Apple iPad etc.

Another USB-C (PD) connector is reserved only for charging phones or laptops using Power Delivery 3.0 technology with up to 100W of power. Connect a suitable USB-C Power Delivery charger into the hub and connect the hub to a laptop that supports Power Delivery. This saves one USB-C port.

HDMI output provides high quality image up to 4K/60Hz Ultra HD resolution and supports multi-channel audio transmission. High frequencies at popular gaming resolutions of 2K/120Hz or FullHD/240Hz are also supported. Thanks to HDR (high dynamic range) support, you can enjoy a significantly expanded range of colours and contrasts. For video outputs to work properly, the laptop must have a USB-C port with DisplayPort Alternate Mode (DP Alt Mode) support or a Thunderbolt 3, 4 port and above.

The compact and slim aluminium body not only looks great, but also provides mechanical durability and passive cooling. You will also be pleased with the finely textured surface, which does not leave fingerprints.

USB-C hub is an ideal accessory for laptops without USB-A connectors and video output. You can use your current USB peripherals without having to purchase new ones. Thanks to the Plug and Play and Hot Plug functions, connecting the hub itself is very simple without complicated installation, and peripherals can also be easily connected and disconnected while the computer is running. The hub does not afraid of connection to phones with a USB-C connector. For example, you can connect a flash drive, keyboard, mouse, display, TV or projector to the phone.
