R1,361

Enhance your social content with CLICKRINGUSB!

CLICKRINGUSB consists of two elements: a professional floor tripod (1.6m maximum extension) and a removable ringlight, which offers different shades of light (cold/warm/neutral), so as to ensure maximum performance depending on the environment. The size of the ringlight is 12 ", with a smartphone holder included in the center. The tripod is extendable up to 160cm. Clickringusb is also equipped with a multifunction remote control, which is activated when it is powered via the 2-meter USB-A cable connected to the ringlight.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
