R8,674

Do you want to position your TV high or low depending on situation. Get a always comfortable eye-level view. This motorized assisted mount lets you effortlessly pull the display forward and down to a comfortable viewing position, where you can turn it left or right for any angle. When not used the display can be moved up the mount returns the display to its original position flat above.

The M Motorized Pull Down Full Motion Flexarm 37"-70" will mount most flat-panel TV's up to 35 kg. With its ingenious design it allows even the largest TVs to extend up to 48.5 cm from the wall, retract, tilt, and swivel with ease. Using smart motorized pull down technology allows remote and effortless viewing with a tool less manual micro adjustment.

The M Pull Down Full Motion Flexarm is a perfect conference or living room solution.
