R6,248

This Full Motion Wall Mount with dual extension arms will mount most flat-panel TV up to 70kg. With its ingenious design it allows even the largest TVs to extend up to 79.5cm from the wall, retract, tilt, and swivel with ease. Using smart tilting technology we allow effortless viewing angle with a tool less manual adjustment. Don't let the size of your TV dictate where you put it.

Capable of supporting TVs up to 100", the Multibrackets M Universal Flexarm Pro Dual HD Offset features two articulating arms that can be horizontally offset to give you the utmost discretion over where your TV is placed. With 79.5cm of extension, this full motion wall mount provides enough tilt and swivel movement to ensure you always have the perfect viewing angle. Its low profile design allows your TV to sit 6.6cm from the wall when fully retracted and features cable management clips to keep your cables out of sight.

Horizontal Offset

Center your TV on the wall regardless of where your studs are located by adjusting the Multibrackets M Universal Flexarm Pro Dual HD Offset arm assembly 27.9 cm left or right.
