Short summary:

Dell Wireless Keyboard and Mouse KM3322W

The Dell Wireless Keyboard and Mouse KM3322W is a practical wireless keyboard and mouse set designed for everyday office and remote work. Both devices connect to the computer through the same USB nano receiver, providing quick setup and a tidy workspace.

The full-size keyboard features a clear key layout and adjustable keyboard feet. The included three-button optical mouse is well suited for everyday navigation and office applications.

The keyboard and mouse automatically enter power-saving mode when not in use. Both devices also feature an indicator that warns when the battery level is low. The wireless range is up to 10 metres.
