R4,505

Connections: USB-C | Connections: HDMI | Connections: DisplayPort | Connections: USB-A |
Connections: Ethernet (RJ-45) | Charging: Yes | Charging power, W: 100 | Short summary:

Dell Pro Dock WD25

The Dell Pro Dock WD25 is a versatile and powerful USB-C docking station designed to meet the needs of today's modern workplace. It delivers up to 100W of power to Dell laptops and up to 96W to non-Dell systems, while supporting up to four high-resolution displays. WD25 is an excellent choice for both Dell and non-Dell laptops, significantly improving workspace efficiency and connectivity.

This dock is part of the world's most manageable commercial docking family and enables centralized device management via the cloud-based Dell Device Management Console. It also supports MAC Address Pass-Through, Power Button Sync, and secure remote boot features.
