

CPU COOLER ACC THERMAL PASTE/ACTCP00001B ARCTIC

Model: ACTCP00001B

Manufacturer: ARCTIC

EAN: 4895213701723

Product Code: 649187

R778

MX-4 20g

PREMIUM Performance Thermal Paste

HIGHEST THERMAL CONDUCTIVITY

The surfaces of processor chips and cooler floors are covered with microscopic dents; ARCTIC's MX-4 thermal paste is composed of carbon microparticles which fill these cavities. This leads to extremely high thermal conductivity, guaranteeing that heat is dissipated quickly and efficiently from the CPU or GPU. With its outstanding performance, the MX-4 is not only an excellent choice for overclockers and enthusiasts, but also for other applications that require thermal transmission.
