EcoFlow DELTA Pro cable (connecting extra battery)

Emphasizing the importance of efficiency and integration in the EcoFlow ecosystem, we present a cable that allows you to connect your DELTA Pro to a Smart Extra Battery. This key component connects directly to the Extra Battery port on the back of the device, allowing you to quickly and easily expand the capabilities of your power station.

Convenient solution

In the package, you'll find one 0.75-meter-long DELTA Pro Extra Battery cable, which is designed for maximum convenience without having to deal with excess wires. The ideal length of the cable allows you to keep things tidy and aesthetically pleasing when connecting extra batteries, while ensuring
