

CISCO Secure Firewall 1210CP Threat Defense IPS 5Y Subs

Model: L-CSF1210CP-T-5Y

Manufacturer: CISCO

Product Code: 653072

R78,511

Threat Defense is a fully outsourced, managed security service. It rapidly detects and responds to security events by analyzing your network traffic, evaluating security telemetry and using global intelligence. Threat Defense takes ownership of the network security event lifecycle. It covers detection, confirmation, mitigation, and remediation. The Cisco service covers detection, confirmation, and mitigation, as well as provides remediation recommendations.
