

LANBERG PDU Power Distribution Unit 19 inch 1U 16A 5x french 2m outlets Black

Model: PDU-05E-0200-BK

Manufacturer: LANBERG

EAN: 5901969441741

Product Code: 653172

R921

The Lanberg PDU-05E-0200-BK is a power distribution unit designed to provide effective power management in a rack-mountable form. With a height of just 1 rack unit, it fits in 19-inch racks, making it suitable for various setups. The unit has a power output of 4000 watts and supports a maximum electric current of 16 A, ensuring distribution of electricity across connected devices. Equipped with five power Type E output connectors, the PDU allows multiple devices to be powered simultaneously. It features surge suppression to protect your equipment from voltage spikes. The 2 m integrated power cable provides ample length for setup, making the Lanberg PDU-05E-0200-BK a component for any server room or data center.
