

LANBERG Patch panel 24 port 1U 19inch cat.5e UTP with cable organizer black

Model: PPU5-1124-S

Manufacturer: LANBERG

EAN: 5901969441895

Product Code: 653174

R935

The Lanberg patch panel offers seamless connectivity with its 24 ports, designed for efficient cabling and wiring. Utilizing unshielded twisted pair (UTP) technology, this panel supports both T568A and T568B wiring schemes, ensuring flexibility in installation. The 26-20 AWG compatibility and LSA (Krone) termination type enhance performance and reliability. Constructed from durable steel, it is built to withstand operational demands while fitting neatly into standard 19-inch racks. With a temperature range from -10°C to 60°C, this patch panel is suitable for various environments. The included mounting kit and cable manager simplify installation, making it easy to maintain an organized workspace. The numbered ports aid in identification, ensuring swift troubleshooting and management. This patch panel is an essential component for any networking setup.
