Model: CA-MJRC-10CC-0020-BK

Manufacturer: LANBERG

EAN: 5901969414028

Product Code: 653337

R522

Lanberg's great quality audio cable allows the transmission of stereo sound using a 3.5mm minijack and RCA (Chinch) 2x connector. Product is ideally suited for vast majority of audio devices such as PCs, smartphones, notebooks, laptops, towers, televisions, media players, projectors, Walkmen and other various types of peripheral and household equipment. The possibilities of cable connection are limited only by the socket placement and the length of the cable - the rest does not matter.

Lanberg's audio cables and adapters solutions will even meet the high expectations of professionals, demanding high audio quality. All in all, Lanberg's audio adapter can be characterized by a good signal transmission, good resistance to noise and less audio disturbance to the original signal.
