With the growing popularity of the USB-C connector, the demand for all kinds of adapters and cables using this modern connector is growing. To meet the expectations, the company introduce cables that allow you to connect the monitor directly to the USB-C connector.

Thanks to the use of USB 3.2 Gen 2 bandwidth, people can transmit video in quality up to 4K at a refresh rate of 60 Hz. From now on, you can connect your laptop directly to the monitor without using any additional adapters.
