The Lanberg patch cable is designed for reliable connectivity with a focus on quality performance. Constructed with Copper-Clad Aluminium (CCA) conductors and HDPE conductor insulation, this CAT 6 cable supports frequencies of up to 250 MHz. The snagless and molded design helps prevent damage during installation, ensuring longevity and resilience in usage. Featuring male RJ-45 connectors, this patch cable is easy to plug in and includes length indication for effortless management. Additionally, the included string bag packaging offers convenient storage. The cable meets essential compliance standards such as EMC, RoHS, and ANSI/TIA/EIA 568-B, making it a dependable choice for networking solutions.
