Product Code: 653424

R516

The Lanberg PCU6-10CU is a CAT 6 patch cable designed to meet various networking needs. Featuring UTP technology, this cable ensures reliable data transmission with a tested frequency of up to 250 MHz, making it suitable for home and office environments. The cable is equipped with molded connectors that provide durability and minimize the risk of damage, while its snagless design prevents cable snags during installation. The use of low smoke zero halogen materials ensures safety in case of fire, making it compliant with EMC, RoHS, LVD, and other important standards.
