Model: PCU6-10CU-0050-S

Manufacturer: LANBERG

EAN: 5901969434255

Product Code: 653425

R518

The Lanberg PCU6-10CU-0050-S is a patch cable designed for high-performance networking. Built with UTP technology, this cable has a length of 50 meters that ensures stable connections and efficient data transmission. The cable is equipped with bare copper conductors that support a frequency of up to 250 MHz, making it suitable for various applications in environments that demand quality connectivity.

The low smoke zero halogen (LSZH) and PVC jacket material offers safety by reducing harmful emissions in case of fire. Additionally, the molded and snagless design enhances durability against wear and tear, making this cable a choice for long-lasting use. It complies with key industry standards such as EMC, RoHS, LVD, ISO/IEC 11801 Class E, and ANSI/TIA/EIA 568-B, ensuring compatibility and reliability in diverse networking setups.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
