

LANBERG CA- US3E-10CC- 0030-B extension cable USB 3.0 AM-AF 3m blue

Model: CA-US3E-10CC-0030-B

Manufacturer: LANBERG

EAN: 5901969413823

Product Code: 653465

R609

Langberg's high quality USB 3.0 extension cable is designed to allow extremely fast, stable, uninterrupted data connection between desktop PCs / Laptops and printers, scanners and any other multimedia / peripheral devices due to the use of modern components and the new generation of communication scheme.

The USB 3.0 itself is backward compatible with USB 2.0 and provides the data transmission speed up to 5 Gb / s, which in effect means 10 times faster data transfer, as compared to the maximum data rate of previous, USB 2.0 standard. The product also meets the expectations of even very demanding users providing a stable, fast uninterrupted signal which translates into appropriately high transfers.

Having high standards and restrictions, in the production stage and multi-step quality controls, allows the final product to meet the extremely high standards and norms, associated with this type

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice.
