Your Laid-back Movie Night

Set the Angles Free

GV32's flexible base design, similar to an integrated tripod, is tailor-made for bedside ceiling projection, offering you freedom to project from any desired angle while relaxing in the comfort of your bed.

Enjoy Front-Facing Images from Your Bed

Tilt GV32's adjustable base to project from the bedside table, ensuring optimal visual positioning without instability while keeping your bed uncluttered.

Effortlessly rotate the projector body with 135° vertical adjustment directly from its stable base, seamlessly transitioning from wall to ceiling projection.

Make the most of your bedroom space by placing GV32 at either end of the bed. Simply rotate the device 180° and flip the screen* for optimal viewing.

*Note: Select the corresponding Projection Mode in OSD settings to correct the upside-down display after 180° horizontal adjustment.

Comfortably Drift Off to Sleep

Relax in Any Position

With up to 360° screen angle rotation adjustment, GV32 lets you find the ideal position for comfortable viewing.

*Note: Screen size may adjust with angle changes.

Resize Screen with Ease

GV32's intuitive zoom lever makes adjusting your screen size a breeze, letting you adjust the image to avoid any ceiling obstructions.

Shift Screen to Your Comfort

Use the remote control to shift the screen vertically and horizontally without changing your position, finding the optimal viewing angle effortlessly.

Drowse Peacefully with Sleep Timer

Set the sleep timer for worry-free viewing until you drift off peacefully.

Eye Care Mode

Tailored Night Shift picture mode automatically adjusts display colors to reduce eye strain, helping you fall asleep naturally.

Immersive Bedtime Audio

Say goodbye to subwoofer sound blockage common with upward-tilting projectors using Ceiling

Cinema Sound Mode. Our meticulously crafted audio settings ensure optimal sound quality whether you're lying down or sitting up.

Brighter, More Brilliant Visuals

Enjoy stunning visuals with 95% Rec. 709 color accuracy and 500 ANSI-lumen brightness—powered by BenQ CinematicColor technology for optimized HDR10 and HLG content.

Rich Audio, Compact Design

Enjoy immersive sound with GV32's built-in 2.1 channel 18W speaker system, featuring dedicated bass for cinematic audio experiences.

Stream Music Effortlessly with Bluetooth

Turn your projector into a Bluetooth speaker—perfect for chilling, dancing, or vibing to your favorite playlist.

SmartRemote for BenQ Projector App

Skip the remote and take control with your phone. After pairing once, just power on to launch apps, adjust brightness or keystone, and more. With a stable direct connection, there's no need for Wi-Fi, hotspots, or hassles.

Google Assistant, Now in Our App

Exclusively available in-app, Google Assistant helps you find something great to watch with personalized recommendations.

Streaming Hot Key

Jump straight to your favorite entertainment with a single tap, seamlessly switching between streaming apps.

Control with Shortcuts

Quickly adjust brightness, auto-keystone, or set a sleep timer with a simple tap in the app.
