Model: 90XB09SN-BPW010

Manufacturer: ASUS

EAN: 4711387835487

Product Code: 654049

R1,674

ASUS smallest 100W charger

ASUS 100W USB-C GaN Charger is the ASUS smallest 100W charger. Featuring gallium-nitride (GaN) technology and boasting one USB-A and two USB-C® ports, this compact accessory is all that's needed to charge up to three devices simultaneously.

GaN Technology

The power of GaN technology

GaN, a high-grade semiconductor, has superb electrical transfer properties and produces minimal heat. This allows internal components to be packed closer than ever before, resulting in an extremely compact charger with exceptional performance.

Simultaneous Charging

Multi-device charging

ASUS 100W USB-C GaN Charger can charge three devices simultaneously, eliminating the need for separate chargers for a laptop, phone, and tablet during travel.

Universal Fast Charging

50% in 30 minutes¹

Numerous fast-charging standards are supported, including USB Power Delivery 3.0, Quick Charge, and more. ASUS 100W USB-C GaN Charger is able to charge a laptop battery to 50% in just 30 minutes.

High-power Charging

Charges fast, charges all

With three output ports, ASUS 100W USB-C GaN Charger is primed to power a multitude of devices. The primary USB-C port delivers 65-watt output to charge a laptop, while the secondary USB-C and a USB-A port are ready for smartphones, tablets, headphones, and gaming devices. When all three ports are used simultaneously, the Smart Load Balancing feature optimizes charging efficiency, distributing 65-watt output to the main USB-C port, and 15 watts each to the other USB-C and USB-A ports.

Versatility

One charger for work and home

Power up all your devices at once with the ASUS 100W USB-C GaN Charger. Designed for efficiency and versatility, it features dual USB-C and a USB-A port, seamlessly supporting laptops, smartphones, tablets, and accessories. Whether collaborating in the office, working from home, or sharing power with family and friends, enjoy fast and reliable charging anytime, anywhere.

Rigorous Quality Testing

Charge with confidence

ASUS 100W USB-C GaN Charger is designed to safeguard against unexpected power surges, overheating, current and voltage fluctuations, as well as electrostatic discharge. Users can rest assured of safe and reliable charging for compatible devices, anytime, anywhere.
