

Flytec V020 12000mah bait boat

Model: V020-12000mah

Manufacturer: FLYTEC

EAN: 5907085524023

Product Code: 654412

R4,224

Flytec V020 12000mah bait boat

Precise baiting with GPS

The Flytec V020 12000 mAh bait boat is an ideal choice for anglers who value convenience and efficiency. Thanks to the built-in GPS module, you can set up to 40 positioning points, which allows you to accurately bait always in the same places. In addition, if the battery starts to run out or you lose range, the boat will automatically return to the starting point.

Three bait tanks

The model is equipped with three chambers - two side and one rear - so you can easily adjust the amount and method of delivery of bait. This solution allows you to fish effectively in different conditions and deliver the mixture exactly where you need it.

Stable steering and dual motor

The dual drive with damage guards guarantees reliable operation, and the wind resistance reduction system makes the boat sail stably even in stronger gusts. The steering range of up to 500 meters allows you to freely explore large bodies of water, and a special cruise control function allows you to sail at a constant speed without having to constantly operate the sticks.

Powerful battery for up to 4 hours of operation

You'll find a 7.4-volt, 12,000mAh lithium battery that provides up to 4 hours of continuous operation. Charging takes 6 to 8 hours, making the device extremely practical for daily use.

LED lights for night fishing

Powerful LED lights increase the boat's visibility after dark, making it easier to orient on the water and further attracting fish. This allows you to continue fishing even at night, gaining an advantage where others have to stop fishing.

Functional remote control with LCD screen

It is controlled by a remote control operating at 2.4 GHz, which is equipped with an easy-to-read LCD screen. It is from it that you will also program the GPS points or check the operation status. You will need 4 AA batteries (sold separately) for operation.

Additional fishing possibilities

The boat also allows you to hook the line and hook at the back, so you can cast the hook in places you wouldn't reach with a classic fishing rod. This practical solution increases your comfort and fishing opportunities.

Robust construction

The body made of durable ABS plastic is distinguished by its impact and splash resistance. Compact dimensions make it easy to transport and store the boat, so you can always have it at hand.
